

Dr. Doyne may or may not put the burden on the bread-winner, it is my opinion that he'll put it where he sees the most fight, or where he thinks he can keep the cash flowing to him and his referrals, but ultimately himself. Yes there are ridiculous hoops and they can be recommended in a very biased way.

It appears to me Dr. Doyne doesn't care at all about the children or the parents, that he ONLY cares about making money.

From the many stories I have heard, I hear nothing but repeated patterns of inhumane abuse, recommendations that defy logic and reationality, that are not reasonable at all, and that completely ignore and do not respect parent and child union or reunion.

In my opinion, Dr. Stephen Doyne is simply dangerous for the Public and undermines many, many important values, morals, ethics, and beliefs... all for one thing that can only be... MONEY.

I agree with Demand Family Court Reform above that court appointed minors counsels are as bad or worse than the court appointed psychologists like Doyne. Tim Smith lies and twists things in his reports and does not say what the children want. I've heard of other minors counsels who do the same thing and they are all buddies of the psychologists and they work together to do whatever makes everyone the most money. Usually that's siding with abusers cuz parents will not stop trying to protect their kids?\$\$\$\$. They don't care at all about the children they are appointed to represent. We need to get rid of all of them and let the children speak for themselves.

The Tadros suit has merit

The Documents speak for themselves- Doyne is corrupt

The Doyned have spoken

Will the Family Court respond?

July 16th, 2009 at 11:51 am

In response to "Doyned and Family Court"--It is doubtful that the family court will respond. "Hubris" is an apt description of the family court. Only when the government steps in will they respond--and the government will step in. Protective parents all across California and indeed all across the U.S. are organizing. We are talking to Senators, Congressmen and Assembly Members. United States Attorney General Eric Holder referred to our problems with family court and CPS during remarks he made to a domestic violence conference on June 2. The government is becoming aware and family court--you are on notice. Understand, family court, that we know why you are covering up child abuse--it puts more money into your pockets and into the pockets of lawyers, minor's attorneys, psychologists and visitation monitors. It is organized crime under the guise of "what is best for the child." Now there is more of us than there are of you.

Stephen Doyne continues to write letters on my case two years after the conclusion. He is not court ordered any longer on my case and continues to generate money for himself by writing letters and talking to the attorneys.

Does anyone else have this experience?

This is sleezy. We need a "gag" order on him.

Why do the judges allow him to continue this outrageous practice?

Stop Stephen!

Dr Steven Doyne is nothing more than an embarrassment to the family court system and so are the enablers that have allowed him to go unchecked!

July 17th, 2009 at 12:06 pm

Yes, Dr. Doyne is an embarrassment and family court should be embarrassed by several of their court-appointed thugs and crooks. How long will it take for the court to address the fact that those in their employ are making money off the ruins of children's lives? They employ sharks who use children to make money. They employ minor's attorneys who lie in court so they can make money until the children age out of the system. And through all the outrage from the parents and children what do we hear from the court? Silence.

59. *Parents against Corruption*

The ethical judges, attorneys and psychologists will rise to the top and distance themselves from Doyne.

The unethical scum will make excuses for his bogus credentials and reports so that they can keep getting referral fees from Kat Doyne.

July 17th, 2009 at 5:26 pm

Reply to ParentsagainstCorruption:

Do you think that Doyne will still be allowed to practice? I realize, of course, that the way San Diego Family Court handles claims of corruption is to simply not comment and wait for the claims to go away. I wonder if that's what will happen with this current scandal or will it actually be addressed?

61. *ParentsagainstCorruption*

He is still practicing. The Family Court judges are still relying on his letters and recommendations. This is appalling!!!

62. *MyResponseToZealousadvocate*

July 18th, 2009 at 4:26 pm

Who do you think you are fooling?

Clearly, "zealous advocate" who posted here, is either doyne-katz diplomate himself; a very close crooked colleague, ie... GREEN, LOVE, DESS.... or possibly one of the minor's counsel court prostitutes (both male and female) employed by this county to supposedly "make decisions which are in the best interests of our children".

Again, who do they believe they are fooling? Someone who has never known my child, gets thrown into the high conflict turmoil and immediately begins making decisions regarding the health, education and welfare of my child? Any decent, moral, ethics-minded human being, (which of course they are not) knows better, and knows that this is a big sham. How many of you who posted here, had experiences with "minor's counsel" in this county? How many times have they complained to you of their extremely large

case-load? ie... "sorry, I couldn't get back to you because I am overloaded with minor's counsel cases".

And yes, the crooked psychologists (or those who claim to be a psychologist) such as the doynekatz case, will string it out, pit one parent against the other to facilitate maximizing their financial gain. And what about the FAMILY LAW ATTORNEYS INVOLVED WHO RECOMMEND THESE INDIVIDUALS to their clients??

The attorneys are equally culpable in all of this. In fact, they usually instigate it, and the crooked psychologists take it from there.

THIS IS JUST THE BEGINNING OF EXPOSING THE TRASH WITHIN THE  
BROKEN FAMILY COURT SYSTEM IN SAN DIEGO. HOLD ON,  
THERE IS GOING TO BE NEW DEVELOPMENTS CONTINUALLY UNTIL THOSE  
ARE HELD ACCOUNTABLE FOR THEIR CRIMES

### 63. *DOYNE-KATZ-CROOK*

July 18th, 2009 at 4:40 pm

I have had the great DIS-pleasure of dealing with this crook.

He took thousands of dollars from my child's education fund from which I had to resort paying him from.

He never did perform the role in which he was hired.

This poor-excuse of a human-being is a BOTTOM-CRAWLER of the worst order. Any attorneys or anyone else who colluded with him over doynekatzcrook's thirty years of deception should, and will be called to the table to answer for their criminal behaviors.

THANK YOU CHANNEL 10 FOR STARTING THIS VERY IMPORTANT PROCESS  
IN SAN DIEGO TO BRING JUSTICE TO HARD WORKING LOVING PARENTS  
AND THEIR CHILDREN!!!!

64. *Abolish Family Court*

July 18th, 2009 at 6:13 pm

Family court affiliated psychologists and minors counsels in my experience are malevolent henchman who carry out the agenda of the court which is political and financial--and they sacrifice our children in the process. The judges enable or initiate the whole scam.

They can bankrupt us and violate our constitutional right to parent our children by taking them away from good, loving parents. The courtrooms are a cross between a dictatorship, a fascist government and a crime syndicate. There is no accountability whatsoever--yet. This is a call to action. We need to stop this.

The devastation is enormous and it is about time the public becomes aware of it. Thank you Lauren Reynolds and Channel 10 for having the courage to expose powerful people. That is real journalism.

Major US Civil Rights / Parental Rights / Family Law Reform Announcement

By NPRA

Published: 06/27/2009 – 07:40

Georgia Political Figures & other State or County Elected Officials Named as Defendants  
in Amended Federal Civil Rights

Lawsuit

Suit sets the stage for a Constitutional challenge of prominent state statute regarding  
rights & issues of custody arrangements

of minor children in instances of separation and/or divorce of parents.

Marietta (Atlanta), Georgia, June 26, 2009 – As our country prepares to commemorate  
its' anniversary of our claim of

Independence from oppression and tyranny from outside forces, many may ponder if our  
country has truly achieved a long

lasting relief not just from those external forces, but more importantly, from the  
suppression of and attacks on the very

freedoms we are supposedly celebrating coming from within the internal ranks of our  
very own countrymen.

The Gottschalk v. Gottschalk, et al federal complaint, initially filed in April, 2009 in the  
Atlanta Division of the United States

Federal District Court, Northern District of Georgia, was re-submitted last week following a major re-write to strengthen the claims being levied against a host of state actors that is a virtual Who's Who list of elected or appointed administrative and judicial state and county level officials.

Case # 1:09-CV-1013, was filed in response to ongoing actions or inactions, taken either directly or indirectly, by the named defendants stemming from underlying civil matters involving two minor children originating in Cobb County Superior Court dating back to 2004. The defendant list includes; Georgia Governor Sonny Purdue, Georgia Attorney General Thurbert E. Baker, Cobb Superior Court judges C. LaTain Kell & S. Lark Ingram, all five current members of the Cobb County Board of Commissioners, all current members of the Georgia State Board of Examiners of Psychologists and the Georgia Composite Board of Professional Counselors, Social Workers and Marriage and Family Therapists, Guardian ad Litem Diane Woods of Huff, Woods & Hamby, Marietta, psychologists Sheri M. Siegel and Susan Z. Volentine, Marietta therapist Emmett Fuller, and attorneys Michael Manely of the Manely Firm, PC and Barbara Lassiter of Paller & Creasy, Atlanta.

The complaint, centered around violations of 42 USC §§ 1983, 1985(3), 1986, 1988, 28 USC §§ 1331, 1343, and the 1st, 4th,

5th & 14th Amendments to the US Constitution, is set to challenge not only the individual behaviors of the named defendants, but will also be challenging what is characterized as the "shadow justice" system that functions within the country's system of "Family" courts, and how the "best interest of the child" standard is applied, or more accurately, misapplied, under state statutes, locally O.C.G.A. 19-9-3. O.C.G.A. 19-9-3 currently allows judges unlimited and complete discretionary power to modify and restrict both a parent's and a child's right to unfettered parent-child association without the necessity of showing any material change in conditions, or any lack of fitness of the parents.

1 / 3

The complaint's thirteen Counts are as follows--

Count 1 - Violation of Procedural Due Process

Count 2 - Violation of Equal Protection

Count 3 - Violation of Substantive Due Process

Count 4 - Conspiracy under 42 U.S.C. § 1983(3)

Count 5 - Cruel & Unusual Punishment

Count 6 - Negligent Supervision & Training

Count 7 - Retaliation for Exercise of Civil Rights

Count 8 - Intentional Infliction of Emotional Distress

Count 9 - Negligent Disclosure of Confidential Medical Info

Count 10 – Slander

Count 11 – Libel

Count 12 – Invasion of Privacy

Count 13 – Declaratory Judgement

Declaratory judgments, permanent injunctions, along with both compensatory and punitive damages are currently being

sought. PDF'ed copies of the entire complaint are available upon request. Send email to

67. *Scam, Sham, Scheme, Scum*

July 19th, 2009 at 6:59 am

Mr. Doyne is clever as he manipulates with the words “protect,” “responsibility,” and “trust.” Mr. Doyne is undoubtedly clever with these professional and noble sounding words, however manipulative in his use, knowing that he will subconsciously command his audience to OBEY him so he can be cut loose after the kids’ funds. What type of a Professional would go this far, to be so strong with these words? Only a clever-minded, manipulative, politically conscious, powerful figure would do this.

Putting parents in the “ring” is a simple and powerful method to Milk the Children Funds. Unless and until parents realize the “REAL & HIDDEN” financial agenda and that the kids college funds are going to be ALL LOST and TRANSFERRED to be Dr. Doyne’s acquisitions, the Family Court will continue to be a very profitable industry for its “OPERATORS.”

Parents must take every logical effort to stay out of the Family Court to protect their kids’ funds, their life savings, their homes, and their extended family’s savings from the legal

looters who are bogus qualified. Do not listen to others who invite you to file with the Family Court. It is a TRAP for all your assets.

Wealthy parents are cash cows and are termed by the court as "high-conflict." Ever compare the thin files of the monetarily less fortunate versus those with more money? The difference is files to boxes in terms of case documentation size. Often the court and its various jesters create "high-conflict," fabricating and spinning situations into something they are not. In its subtle language it means get ready to appoint the Mediator, Evaluator, Therapist, and Supervisor. To get there only one of these so-called professionals needs to be appointed to one of the parents. This minimum step is a first out of loyalty to the rest of the team or gang who will CREATE & FABRICATE reasons to appoint the rest of the team or gang. Sometimes the fight is there to begin with between parents, sometimes the fight is minimal and most certainly escalated by the Attorneys. Always it is escalated by the operatives at hand, piggy backing from one back-patting so-called professional to the next up the ladder, involving more of these so-called professionals, and back down the ladder comes falling the kids' college funds, the life-savings, homes, extended families' monies, you name it, these so-called professionals are good at one thing, figuring out where the money is and keeping the cash cow being milked. As soon as the fight comes the Team inevitably is "Court Ordered" with their Service Menu:

a- Mediator roughly \$250/hour. If parents keep fighting, the mediator is justified to stay on the case and the more the Mediator's cash flows to him/her. If mediation doesn't work out then custody evaluation is ORDERED, and often you get no choice of an evaluator,

and maybe you'll get three choices of evaluators to choose from, and the Family Court in San Diego keeps working with the same Evaluators over and over, and over. Hmmm?

b- Evaluator (Bogus Certified) roughly \$350/hour. The more the parents fight, the more the Evaluator's cash flows to him/her. Even if the parents don't have much fight to begin with the evaluator may likely fabricate fight or pathologies, assign you out to his/her looting associates, and have you coming back for re-evaluations and updates to keep the funds being milked.

c. Therapist roughly \$200/hr. If the parents are kept suffering and deprived from seeing his/her child(ren) as is often the case upon recommendation by the evaluator, this will keep the deprived parent MOTIVATED, otherwise the parent will lose the motive to keep paying the therapist. So the rest follows as solidly as Psychology is not a true science... Can this parent ever get better? The therapists know how to keep the cash cow being milked. Would this parent getting better any time soon inversely affect the Therapist's Cash Flow?

d- Supervisor from \$70 to 200/hr (average 8 hours total is \$600-1400) per single child visit. This Supervisor will be broke and not needed as long as the parent treats his/her child(ren) with love and care. So guess what a supervisor would write to the Evaluator to keep the cash flowing for all the team, to maintain a steady income?

e. Minor's Counsel: the worse the parent, the richer the Minor Counsel. It is that simple, same as all others as above. Minor's Counsel are accountable to no one, why does a parent hire one? Simply put, they're not a good parent to begin with, nor are they using their head. At this point in the looting scheme the parent is wildly and blindly believing that more professionals will be the solution. Why not have counsel for the minor's

counsel, an Attorney for your Attorney, and Evaluator for your Evaluator? This is what has happened many times over when parents fight just to have their children in their lives... and then more backpatting occurs on top of backpatting that is already occurring. The TEAM EXPANDS as your portfolio contracts! This underscores the silliness of utilizing minor's counsel in the first place.

COLLATERAL phone calls between any of the TEAM MEMBERS will keep the monthly income for the team "steady" even if the team did not see any of the parents for that month. The bills will still be coming regardless of whether you saw Judge Doyne or not. By the way, what happened to the value of a Judge... Oh yah, it got transferred to Judge Doyne and the rest of his team. Judge Doyne will tell you he has quasi-immunity and that you cannot sue him when and IF you finally realize what a scam this all is.

Where's the real Judge? Oop, the loop just keeps going on and on, and on, and your and your kids' money keeps getting milked from you and your family, and your extended family. It's a business and it's politics. They don't really care about you or your kids, or the families, or any of the people they are destroying, or at least it very STRONGLY appears this way, which could only mean one thing, it IS this way!

68. *DontForgetTheLawyers*

July 19th, 2009 at 7:01 pm

Let's not forget the crooked lawyers who appear in court and "highly recommend" these scumbags as being "known to family court", "experienced in family court matters" and so on...

I've heard it all.

SHANNON GLOVER SAN DIEGO ATTORNEY IS A

DOYNE/GREEN/L.LOVE/DESS LOVER.

She also loves to recommend and use supervision monitor scum.

She does not have a clue as to their competency certifications if any at all. She simply loves to use them because it makes her job easy, and the cash cow keeps getting fatter with each letter, phone call, court appearance, etc... I firmly believe she had good intentions when she studied law, and probably the highest aspirations of doing good. However, like the rest of em, she went bad when she began to sniff the greenbacks in her clients accounts.

69. *QuestionsFor10News*

July 20th, 2009 at 7:53 am

First off, YES, CONGRATULATIONS TO 10NEWS for finally uncovering the FRAUD, LIES, DECEIT, AND DISGUST WHICH IS SAN DIEGO FAMILY COURT. However, this is only the "tip of the iceberg" isn't it?

10 News Reported in their piece regarding "Dr." Stephen Doyne, that there are only about a "dozen" psychologists who are used on a regular basis in San Diego Family Courts, (San Diego includes Vista, El Cajon) courts also.

The San Diego Family Court System is Monopolistic. They are violating U.S. Anti-Trust Laws regarding Monopolies. Why do the San Diego Family Court Judges condone the use of "The Dirty Dozen" ie.. Doyne, Love, Sparta, Dess and the eight other opportunists? Of course when a monopoly is put into place, especially by a Governmental Agency such as this court system, there is going to be major abuses of the system. This in itself is not new. However, absolutely nothing has been done over many years to address this major flaw in the San Diego Family Court System. It is a sick system which needs to be overhauled from the ground up.

10NEWS- How is your investigation going, and can you let the public know when your next piece will be aired?

Thank You again for exposing the scum in San Diego's Family Court. Also, the Family Court Judges are equally culpable in all this. When very important topics are brought to their attention, most of them reply with "it's not on the calendar today", or simply don't care and move on to address the next Family Court victim's case.

10NEWS- one more question-- is anyone going into the court rooms downtown, El Cajon and Vista to monitor decisions made by the Judges when there is minor's counsel involved, and any of the dirty dozen psychologists, (or those who pose as a psychologist)?

#### *70. The Other Side*

July 20th, 2009 at 11:14 am

It is sad to hear all of the negative experiences so many of have had. In the interest of fairness I thought I should share my story. My children were in therapy with someone on our insurance plan. As soon as my exhusband was forced us back into family court my children were dropped like they had the plague. The therapist said that she could not accept "insurance rates" to be put through the court system and she refused to speak on their behalf. IT was two of the people that have been attacked above that stood up for my children and I believe could have saved their lives from a very sick father. I am aware that he threatened both of them and they never backed down from fighting for my kids. My kids are healthy and well adjusted and my ex husband is currently serving jail time for an unrelated matter. I do not know what any of your experiences were but please remember there are two sides to the story.

71. *Julie vista*

July 20th, 2009 at 1:12 pm

I agree with the above sentiment,

“The ethical judges, attorneys and psychologists will rise to the top and distances themselves from Doyne.”

Why doesn't Channel 10 New I-Team challenge the family court system and get their side of things, the Presiding Judge, Family Law Attorneys, and other psychologists, so that we can really get to the bottom of what is really going on within the system?

The true facts about Dr. Doyne will come out in his case, and I am sure we will hear all about it. There seem to be a lot of disgruntled people writing on the blog and I wonder how many just didn't like their result from Dr. Doyne.

72. *S.A.T*

July 20th, 2009 at 1:31 pm

As a Family Law Attorney in San Diego, I have read all of the blog entries. I can understand some of the frustrations aired, but it comes from a misunderstanding of the system.

The Judges hear the facts and make decisions about the issues of custody and visitation.

Family law attorneys are not psychologists. They can argue zealously their clients positions. However, when the case is so fraught with allegations between the parents ( i.e. that one parent is alleged to be alienating, when a parent is psychologically hurting a child(ren), when a parent has problems of mental illness, when there are allegations of other forms of abuse), then of, course, each attorney is arguing a different set of facts in

support of their client. However, not being psychologists, we cannot diagnose and give professional recommendations about what should happen. We have to present evidence. It is in these cases, we are forced to present other independent third party evidence of a forensic psychological professional.

There are only a handful of these professionals in each county. They do not work for the county. They do not work for the Court. They do not work for any law firm. They are independent professionals. There are no referral fees paid whatsoever, by any court, any attorney of any psychological professional.

As I am sure many of you are aware, as was eluded to above, many therapists who work strictly in the therapeutic setting will NOT speak up and give their opinions. Therefore, that leaves a handful to deal with.

I hope this helps in your understanding of our system of justice, not only here in San Diego, but in the State of California.

### 73. *Doyned*

July 20th, 2009 at 2:40 pm

I'm sure there are plenty of cases where Doyne makes the right decisions but there are far too many where he grossly and obviously is out to make a buck, there can only be one answer considering the gross and glaring lies he commits to. Give the chance, the Doyned would love to see him squirm under questioning. THAT... all should see. It would be truth telling for sure so see how he cleverly tries to weasel out of his lies and answer questions he should have answered correctly in the first place. In other words, it is well known that he knows exactly what he is doing... why do you think some are so upset with him? The level of abuse that he commits himself to would have the world

news all over his rear if it were animals he was doing this to. The only thing protecting what he does is institutions believing and thinking he is a true expert, and that he is NOT. Doyne has fraudulent and misleading credentials, period. The facts are there. Where is his substantiated evidence? Where is it? If it were there it would already be in the case and all this would have never gone this far.

Attorneys are a big problem, they over zealously argue their clients position without care, often knowingly so that they drive the case to bring more money into their pockets.

Bring digital cameras into the court and into the evaluator's offices and point cameras on each face, including the attorneys, Judges, and Evaluators and much of the criminal activity would come to an end... but the Court and Attorneys will never approve of that because they don't care at all about the parents or the children, they only care about their own and making the big bucks.

I dare you, I dare you to bring camera systems into the Court. Why on earth do we not have that in place? It is economical and would create new jobs, and solve a lot of problems. Why aren't Attorneys and Judges speaking out about this? Why? Because they have no real integrity or care for the parents and children who come to them in their most vulnerable states in their lives, that's why. Family Court is a business and politics, it is NOT in the best interest of the children, it is in the best interest of the Judges', Attorneys', Mediators', Evaluators', and Therapists' children, period.

S. A. T., your points are bogus. You would argue those points till you die, never seeing the other side of the points precisely because you have no real integrity or care for the parents or children who come so vulnerably to the Family Court for help. Shame on you all for taking advantage! I view you as nothing more than scum.

Just you wait... over time there will be an ever growing population of abused parents and children whose voices will grow so loud you will no longer have a voice of your own.

Shame on you Family Court, Shame on you greedy, uncaring Attorneys! Shame on you Doyne!

You know very well what you people do to others!

74. *Knows BS when sees it*

July 20th, 2009 at 4:34 pm

Dear SAT, Thank you for helping us to "understand your system." What utter hog wash. But why shouldn't we expect that from the swine that feeds from the family courts trough? My child continues to speak out about the abused suffered. And against the father that perpetrates this abuse. I received a good psych eval but the court appointed minor's attorney delivered a 22 page rebuttal within 24 hours stating why I was indeed mentally ill. This he managed to deduce without having never interviewed me and with the child continuing to cry abuse against the father and begging to live with me. Why did minor's attorney do this? Because he is a despicable little toad that cares only about the fees from court and the money he can collect until my child ages out of the system. If the pig knuckle fits then wear it.

75. *When will it change for our children?*

July 20th, 2009 at 6:02 pm

Stephen Doyne is an incompetent shill. I've worked in the family law industry (yes, it's an industry) for years. From what I've seen, he does not know how to mediate, despite the fact that he's been mediating for years. He's usually extremely one-sided in his 730 evaluations, and has been known to award sole custody to a clearly abusive parent based

solely on who pays him the most. This can be manipulated for the benefit of your client—  
if you know how (and your client is willing to lie).

He regularly overcharges parents—stating that the case only requires \$3,500, then

Dear DOYNED:

That is where you are completely wrong. A good attorney will do everything they can to  
mitigate the damages of a client, when their client is in trouble, while still zealously  
advocating. There are times when no matter how much we might try and get you to  
understand your position is wrong, or you are not emotionally able to handle a situation, at  
the moment, and it is not the right time to proceed forward . . . . but you don't listen. . . .  
and then when things don't go your way, everyone else is to blame.

I have integrity. That is why I was trying to explain how the system works. Do not attack  
me, or call me scum, simply, for trying to educate you about the judicial system.

Dear BS WHEN YOU SEE IT

So, you think we “swine that feeds from the family courts trough” are your problem. For  
that I take offense. Not that you will understand . . . .but

To quote the original Shakespeare, Henry VI, part 2, ““The first thing we do, let's kill  
all the lawyers.”

Sounds good, I am sure, but clearly you didn't read, Henry VI, Part 2, Act 4 , you'll see  
what Shakespeare actually wrote, “How do we bring about Tyranny?...The first thing we

do is kill all the lawyers." Which changes its meaning entirely: Where Law Ends, Tyranny Begins.

So, K.B.S.W.Y.S.I. No have no idea what you are talking about whatsoever. Stop attacking the lawyers that you turn to in times of trouble. We cannot fix all of the problems that you have created over a lifetime, because MOST of us do our very best to help you. I can't help that you do not appreciate us, but stop attacking . . . until you have examined what you have created yourself!

Isn't this lawyer squabble starting to get away from the article above?

It is my opinion that Stephen Doyne has false and misleading credentials... I've seen the exhibits. From what a lot of people are saying here about him, he sounds like he is very sick in the head, much like a sociopath.

The Family Court of San Diego has allowed him to get away with these false and misleading credentials, and no matter what they say, it is their responsibility... they approve him, they appoint him, they give him quasi-judicial immunity, they put him on a pedestal... therefore they are responsible for his conduct, especially so while he is under the penalty of perjury.

Is he still operating as a custody evaluator? Is the Family Court still ordering parents to him for therapy, mediation, or evaluation? If so, WHY?

78. *PsychologistsGoneBad*

July 21st, 2009 at 7:58 am

Why isn't the court appointed psychology work open to the hundreds of Psychologists in San Diego County?

Why does the court and the lawyers choose a "select handful"?

Are the Ph.D degrees from good, upstanding reputable Psychologists (which there are many available) any different than the annointed few who are used time and time and time again ad nauseum?

When the Government puts out a bid for a contract, isn't it discrimination to not permit those qualified to do the work to place a bid?

There is a very compelling reason that this can only occur in Family Court.

Because they think they can do it and get away with it.

THE CRIMINAL ACTIVITIES OF BOTH ATTORNEYS AND PSYCHOLOGISTS GONE-BAD ARE FINALLY IN THE NEWS, NATIONWIDE. SAN DIEGO COURT SYSTEM IS ON THE MAP.

JUDGES BETTER CHANGE THE WAY THEY DO THEIR "BUSINESS" IN COURT, OR THEY WILL ALSO BE HELD ACCOUNTABLE FOR THESE CRIMES. ITS HIGH TIME THAT THESE JUDGES LISTEN TO THE PARENTS OF THE CHILDREN WHO ARE BEING VICTIMIZED BY THE WICKED PLAYERS IN THIS SYTEM

July 21st, 2009 at 10:10 am

"A good attorney will do everything they can to mitigate the damages of a client, when their client is in trouble, while still zealously advocating."

Quite possibly true.

But when a person follows the advice of their attorney and it turns out that the advice is bad and the law firm does nothing for the client to correct what happened. They did fire the attorney that gave the advice but that helps them, not the client.

When that same law form presents a two page document to the client that lists laws ignored by the court and actions that should not be allowed by the court and does nothing, you begin to wonder.

This type of behavior is repeated time and again in family court systems across America.

80. *Doyned*

July 21st, 2009 at 11:05 am

Michael Painter take the lawyer arguments somewhere else, this has little to do with the I-Team's story above.

Doyne has false and misleading credentials.

There are sham credential organizations out there allowing people like Doyne to deceive the Judges and the Public

Family Court it not following the rules of the court.

"Our misunderstanding of the system" you say Ms. Green?

Hmm.. Interesting lawyer perspective.

I would beg to argue it is your "misunderstanding of reality" as it pertains to San Diego

Family Court, —

it's numerous inadequacies,—

not following it's own local rules of court, —

not one bit interested in Phony Credentials held by some of its highly recommended

Ph.D's.—

it's very frequent use of minor's counsel — TAKES PARENT OUT OF THE PICTURE

AND DESTROYS CHILDRENS LIVES AND MEMORIES

it's very frequent use of supervision monitors— — TAKES PARENT OUT OF THE

PICTURE AND DESTROYS CHILDRENS LIVES AND MEMORIES

it's inability to make judicial decisions based on facts and family law.— —

Ms. Green, perhaps as you awaken from your deep sleep, you too will have a decent sense of family court reality too.

I wish you the best in that pursuit

There's a lot to be said about Doyne and his poor performance, fraudulet credentials, and undeserved status he enjoys from SD Family Court. There is no doubt in my mind his business or racket will deminish. Personally, I find his demeanor deceptive and his court recommendations reveal a sort of power-trip he uses to inflict severe emotional pain. Doyne needs to look in the mirror and try to discover the source of his own pain he seems to project onto others. Doyne is cruel and his errors a cancer to his character. I recommend annual psych-evals be ordered for citizen Doyne where pays \$10-20K for months and months as he is alienated from his loved ones! Perhaps the money collected could be given to a college fund for children he has affected.

83. *Doyne's "Practice of Psychology"*

July 21st, 2009 at 6:20 pm

Sham, Scam, Scheme and Scum said it best.

Doyne was hired as a "mediator" in my case and crowned himself "Special Master" without a court order.

I would like to add Doyne insists that the parents and children stop seeing any of the

Psychologists covered by our insurance and refer them only to his "team" of therapists well know by the court. These therapists cost \$300 per hour in our case and charged \$450 per hour to drive and prepare for court although never asked to appear in court by the judge or the parties.

Doyne laughed when I told him I needed therapists and doctors on our insurance and he refused to allow my children to go to professionals they had been to for 7 years. He even changed my child's pediatrician she had been with since birth.

This is abuse of power.

Minor's Counsel refuses to talk to the children- instead he talks to Doyne to find out the "factoids".

Doyne's credentials are bogus and his practice of psychology is appalling. Ethical professional mental health professionals are not in the line of "court appointed" racket. They are truly taking care of their patients in a professional manner. They are healers not destroyers of children and families. True health care providers recognize Kat Doyne for what he is a charleton.

Quasi-Judicial-Immunity the courts bestow on "Special Master" Katz??

This is like something out of a fiction novel. A nightmare novel, that is.

This is tantamount to giving a well known thief immunity from prosecution of his soon-

to-be criminal activity, (WHICH ALL KNOW WILL OCCUR).

Yes, this is comparing apples to apples.

Only the San Diego Family Court System would devise this complete and utter nonsense to protect their own

I'm an educated, strong individual and have lost so much of my children's lives because of his recommendations. If only there was a way to get my money back and have a redo. This makes me so sick that so much was based on his recommendations alone and he's affected so many families. Very typical story about the extremely incompetent minors counsel in San Diego Courts.

Last I was there, I saw minors counsel literally running between court rooms giggling along the way and making jokes with their attorney colleagues.

These folks are nothing but UNprofessional Bozos.

After she was running back and forth and forth and back between court rooms giggling away and cracking jokes with her pals, she immediately straightened up and put her poker face on when the Judge walked in. She actually believes that the general public

does not watch her antics. Is the citizenry supposed to honestly believe that these jokers have the best interest of our children on their agenda?

88. *Family Court Critic*

Minor's Council should be abolished. An attorney is supposed to represent their client and minor's council represent the parent that has the most money or that they like the best. My child's minor's council would not even return his phone calls and when my child complained of being abused minor's council response was, "no you're not."

Those of you and your children who have suffered from the fraudulent, deceptive poor excuse for a psychologist with alliant univ.credentials, Zoe D. Katz credentials, have probably also suffered from the "konia connection" as was recommended by katz-doyne. The "konia connection" as they have been known by, are both Ms. Monika, and Mr. Alan Konia. They are the "konia- county trained supervision monitor team". Anyone who has had the great displeasure of meeting (and using their services) of these two extraordinarily severely mentally ill people, know exactly how fraudulent these relationships truly are.

As was posted on this blog above a number of days ago, look what L.Viviano lists on her site. In fact, I believe that Viviano shares the same severe mental illness disorder that the Konia team exhibits. IF "State Mental Hospitals" were still in existence, these sub-humans would certainly be in the same ward.

Thanks again to the I-Team for investigating this story. One would think that Doyne would have a sense of embarrassment or shame and would close his doors for awhile—or leave for awhile on a vacation. He continues to be involved in cases even though he has finished his evaluation report some time ago, Despite the publicity Family Court continues to treat him as a revered “expert.” If a man is not truthful about his background how can the court possibly trust anything else he says?

Is it possible that everyone who is bashing Dr Doyne was not able to hide their mental illnesses or their sicknesses that prevents them from being responsible STABLE parents?

The Dr. who is trying to discredit Dr. Doyne is vey very unstable as his coworkers will tell. He cannot control his anger. He lost his kids and like many parents they do not take

responsibilities for themselves they have to blame someone so they blame him the court, the child's attorney. This is the case with many people who find themselves going through the court system and being found out that they are not safe with their own kids. Dr. Doyne is in a very tough position. I watched a parent who was clearly unstable lie lie lie and she got away with it for years. Dr. Doyne was the only one to dig deep enough to figure her out. We were all relieved to see the children are safe and doing so much better. This news story was weird it was all one sided. Attack TV come on can't we see through this?

The parents speaking out about Doyne are not sick and ill, they are High-functioning, educated, loving and caring parents.

Dr. Tadros is very good natured and is stable. James you have absolutely no proof that Dr. Tadros is unstable. Where are these co-workers? If he was so unstable well then they too would be speaking out about him, but where are they?

Stephen Doyne has fraudulent and misleading credentials.

Stephen Doyne will take children away from normal parents and place them with the problem parent, this is going on as we all post here.

The court is allowing him to get away with this.

There are no reliable checks and balances, Stephen Doyne is not in a tough position, the parents are in a tough position in evaluation with him because he deceives the Judges and his clients into thinking he's the real deal when actually he is very unethical, unprofessional, and incompetent.

Now Dr. Tadros has a real Board certification and has real oversight, real checks and balances over him, he is a high performing professional. To get where he is is much harder than where Doyne is, and Doyne used sham credentials to get where he is, or to bolster his status... a feakin' pet cat has credentials from the same sham organization that Stephen Doyne got his Diplomate from, the one he so proudly places below all his correspondence and reports. The evidence is there, there is no way for him to hide this.

Stephen Doyne is a con-artist.

No, I didn't really lose my case with Doyne and I know a few others who didn't either, but they are absolutely fumed about how blatant he lied in the reports, didn't contact collateral contacts, and flat out fabricated lies.

A parent doesn't have to be screwed over by Doyne completely to know he's a con-artist, fraud, and danger to parents and children.

That's the point. I caution you who want to view the Doyned as "disgruntled" parents or who were the ones on the short end of the stick... there are so many things Doyne does that are unethical, unprofessional, and incompetent it is crazy.

The main issue is that there is evidence that he is a fraud and has misleading credentials. What part about that do you not understand? Have you not gone to the courthouse and viewed the exhibits yourself? I would guess you haven't.

What if your MD didn't have a MD, but one from a sham board or certification mill... how would you feel about him/her then?

I don't care how many of you come out and say what a great guy Doyne is, you're obviously supportive of his lies and supportive of so-called professionals who would lie.

"Cat" Doyne: Venal Custody Evaluator

Doyne's credentials are a false. This has been a vetted process uncovering Doyne's bogus certificates and teaching positions.

Even the people with custody evaluations in their favor have stated that Doyne ignored

evidence and statements. Doyne does not contact collateral contacts.

The Doynes group is huge now secondary to Channel 10 and The Reader article.

Many of the person's Doynes only were assigned therapy and notice he does not do "therapy" he just takes notes or plays on his computer during the time.

Doyne has taken on Dual Roles in cases this is against the APA ethics

Doyne falsifies his billing

Since he gets himself court ordered you can't get rid of him even if he is not behaving professionally.

Doyne has failed to call CPS when CHILDREN complain of abuse. He is a mandated reporter. Doyne is breaking the law.

Doyne refuses to give his CV now to anyone-This is against Court policy. Why do the Judges let him get away with this.

Doyne will never change- he will stay a slimey charleton

but it is up to the JUDGES to take the ethical high road and give him and his bogus custody reports out of the courtroom.

One of the top custody evaluators in San Diego said Doyne is venal and then cherry picks the evidence to prove his decision made at the beginning. Something is very fishy about his

procedure. Has anyone subpoenaed his financials?

Doyne gives a diagnosis to a parent or child although he is not the therapist. This is against ethical guidelines.

Doyne has misled the judges for years now It is time he is exposed in open court.

102. *Grow Up*

July 23rd, 2009 at 7:31 pm

I am amazed at the hatred spewed forth by a parent who is under the impression that their ex, (the other parent) has "won" the grand prize of custody of their offspring. I have observed that those parents who refuse to compromise, insist on sniping at each other and have a complete inability to see things from their child's point of view, tend to have to spend the most money on lawyers, therapists, Minor's Council and monitored visitation and exchange. When they don't get what they want (which is usually revenge) they must have someone to blame, just like a spoiled brat. They cannot take responsibility. They cannot admit they might be wrong and they cannot say they are sorry. Sometimes it is difficult to tell who is the parent (adult) and who is the child. I am pretty sure I know who started this snowball of self pity and blame. It is an individual who lost custody of their children because they would not desist from alienating the kids against the other parent. This person can now only see their children with a professional monitor present. My advice to any divorcing parent is to treat your co-parent with respect, no matter what they've done and try to open a line of communication without being invasive of their space. A good mediator can help you do this if you will let them. Stop looking for someone to blame, take a good look inside yourself and for Heaven's sake GROW UP!

Ok everybody, lets get a reality check. If you are in the family court system you are dealing with a system in which the good old boy network is alive and strong and it is seriously flawed. The lawyers and judges are corrupt and lack integrity. Why can't you see the truth in the matter? Is Dr Doyne going to become your scapegoat? It appears as if many of you who have been ruled against or been found to be less than competent, ideal parents want someone to blame. Why don't you look to yourselves? Dr Doyne is a credentialed professional doctor with integrity who has with courage made recommendations and referrals that are not always the popular opinion but he knows what is best for children and takes the hard, difficult stand to try to provide that while the attorneys and judges just want to make money out of the conflict inherent in most divorce proceedings and especially those that involve custody battles. By far the most unjust aspect of it all lies in JAMS, the private, elite court system designed for only the wealthy to cater to the wealthy spouse. My personal experience supports the view that Dr Doyne is a man of integrity and values and strives to discover and recommend what is best for a child in any and all custody disputes.

I'm not an unstable parent. I've been reaching out and loving my daughter consistently ever since she was born. I taught her how to ride a bike, bat a ball, catch a ball, etc, helped her with homework, volunteered in her classrooms, coached her teams, and even followed the court rules and wishes to a "T", and even Doyne's biased recommendations. Of all of that... the best times were before and after the court system process, and specifically Doyne's evaluation and recommendations. Doyne's recommendations have brought more harm to my daughter and the relationship that she and I share than if I never was ORDERED to evaluation with his fraudulent, lying rear. That's right, I'm a stable parent, and for the most part her mother is, but the questions isn't about whether one parent is stable or not, the question is about how many vulnerable parents Doyne fabricates egregious pathologies over, and how deep and serious he lies in his reports and professional conduct. Is that all you have Teresa and James, is that all you have, to say that the parents are unstable? You have no idea what you're talking about, and when the truth comes out this time around in history, the light will shine brightly where it needs

to... on the real problem... the fraudulent and misleading, lying, unprofessional, unethical, and incompetent Dr. Stephen Doyne. I stand firm on this opinion of matters. No where in time have I ever been diagnosed with any mental disorder, and chemical imbalance, nor have I a criminal record, nor do I use drugs or have problems with alcohol... yet Doyne has fraudulent and misleading credentials?

The Doyned are justifiably frustrated, mean very well, professional, sincere and trying their best carrying the truth forward to protect your families funds from being looted by "Doyne's Creativity." As they carry their serious message to the public, "some unique reviewers" pinpoint the Doyned as biased. But what can one sincerely do if the truth is FALSE AND MISLEADING CAT PURCHASED CREDENTIALS?

I noticed that some here are getting a High attacking the frustrated and broke Doyned (as Doyne broke financially them) and are taking every effort to shy the readers away from "DOYNE'S FALSE AND MISLEADING CAT PURCHASED CREDENTIALS." The judges and well educated professionals who chose integrity as their landmark get it. Judges are not dummy and do not need to too much into it. They ALL got the point loud and clear and merely the CAT Diplomate speaks volumes to them and Doyne must respect others' IQ.

Doyne intimidates and rationalizes that somehow ALL 3 universities lost ALL their records ONLY about Doyne but never anyone one else since the sixties.

The Doyned will carry the Torch forward and will continue shining the truth, regardless.... No bias, no fights and no one is perfect and we are respectful of every

loving parent regardless... Dad/Mom must love and respect the other parent as much as our kids love dad/mom and must be with no difference as it is FELT by our kids. No games for Doyne financial agenda putting the parents in the Ring, fighting each other.. We understand that we are all humans and that we as parents looked at each other's some day with love, respect and compassion to each other. Now our kids deserve our forgiveness to each other to give them the best of it...

Now we have our parental differences but for the sake of our "children best interest" we do not lose our dignity and we do NOT follow Doyne's splitting agenda and we do not lose our respect to each other parent.

The facts here are merely about DOYNE'S FALSE AND MISLEADING PURCHASED CREDENTIALS. Peroid.

Respectfully submitted.

Doyned...

113. *Putting it in Perspective*

July 24th, 2009 at 2:41 pm

I've read very interesting write-ups in this forum regarding Dr. Stephen Doyne.

My interpretation of all this is as follows:

Yes, there are many (and many who have not yet discovered the doyne credential fraud coverup) fairly angry people out there who certainly have a bone to pick with Dr. Stephen Doyne, Diplomat.

Anger is a good thing when properly managed. I would say the large majority of these complaints are in that category of "properly managed anger".

And that anger is being managed by protecting the public from Dr. Stephen Doyne, Diplomat.

Anger is a normal everyday human emotion. What becomes of that anger is what is most important.

I am not a party to all this "doyned" stuff here, however, as a citizen of the U.S.A. I am appalled that the San Diego Family Court System (and attorneys who have recommended him) does not care to check the credentials of their "appointed professionals". This in itself is criminal in nature, and needs to be addressed. Who is responsible for that decision?

The San Diego Board of Supervisors? The Mayor? Probably not.

It is more than likely the responsibility of the court itself, possibly the Supervising Judge.

I'm not 100% sure though. If someone would shed light on who is ultimately responsible and accountable to the public for that decision, I greatly appreciate it.

After all, 3,000-4,000 custody cases by Dr. Stephen Doyne Diplomate means that at minimum, there have been 6,000-8,000 parents (mom and dad) affected by Dr. Stephen Doyne Diplomate, and lest we not forget, THOUSANDS OF CHILDREN exposed and emotionally injured by him in those evaluations.

114. *Not for the kids!*

July 26th, 2009 at 2:44 pm

Calmdownforthekids (see July 23rd) is oh SO wrong, and I'm speaking from the standpoint of someone who was awarded custody. This system is NOT about what is best for the kids. It's about what is best for the evaluators and attorneys, and it's called MONEY!

Has anyone encountered a situation in which one evaluator files a really lousy report, and then both sides have to hire their own evaluators to either back up the report or tear it apart, depending upon which side you're on? That's what we had to do.

115. *Trying times*

July 26th, 2009 at 3:13 pm

Anybody out there go to trial after the evaluator made a recommendation? If so, did you find that the Judge pretty much automatically sided with the evaluator?

I would hope that judges don't look at evaluators as gods and instead listen to the facts, because in our case the evaluator was clueless. It is a wonderful system . . . if you are an evaluator!

116. *AreYouKidding?*

July 26th, 2009 at 10:48 pm

No, I don't think Family Court Judges view the psycho-evaluators as Gods.

However, the Judges do view them as "the way out".

Meaning; these San Diego Family Court Judges are adamant about rendering decisions on the more difficult cases before them, ie.. high conflict divorce/custody issues.

Therefore, instead of making those decisions which they are being paid to make, they farm it out to the "dirty dozen" psycho's which are a part of the San Diego Family Court system like a cancer. The cancer, similar to most cancers, grow and take on a life of their own. That is why there have been numerous postings here and other websites which clearly state that doyne who has fraudulent/misleading credentials, stays on and continues to write letters on behalf of one of the parents, of course it is the parent who is paying him to continue to be involved, although he was released by the parents and/or the court. Doyne with "Cat" credentials, is by far the worst of the many cancers within the San Diego Family Court System. No, not viewed as a God, just a cancer who will take the pressure off of the high paid Judges who can not, and will not make a decision. Stephen Doyne with the Cat Credentials is paid quite a handsome sum of money from his parent

victims. Cancers keep growing until they are destroyed by chemotherapy or other treatments. These forums which are finally exposing the corruption of the players within the Family Court System in San Diego, are in fact what will ultimately destroy this cancer

117. *whatiswrongwithyoupeople*

What is wrong with you people? These doctors and evaluators work so hard and sooooo long taking not only continuing education courses, but reading and studying on anything they can get their hands on. People (like a certain person who is starting this whole mess) attack those who know what is best for their children. this certain person doesnt have much contact with their children any more and are looking for revenge. Oh so lets attack a hard working man and those who are associated with him..... Yet again get a life and try to do what is best for your children which is to take responsibility for your actions as a parent who was controlling and abusive in their own right. I couldn't imagine taking someone down just to make my self feel better. These doctors and family court are here for us for a reason, BECAUSE OBVIOUSLY you cant handle yourselves as adults and turn to others for help. When you get help and it isnt what you had hoped for; which im sure is to tare the other parent up, you get upset. Grow up is right..... GROW UP

118. *re:whatiswrong*

July 28th, 2009 at 12:39 pm

You started out ok in your first couple of sentences. Yes, there are certainly hard working psychologists out there, actually hundreds in San Diego County who profile themselves correctly, have great credentials, and really help people, even those in high conflict divorce/custody situations.

Then you went downhill from there quick:

The problem is: these hard working ph.d's are not part of the San Diego Family Court system. The ones (especially the dirty dozen) who are used over and over again by the Family court system have either been, or have become very corrupt. They charge absurd amounts of money, abuse their authority granted by the courts, lie on a daily basis, and many like doyne have false/misleading credentials.

Would you want a surgeon cutting into you to remove a cancerous growth, if you knew he/she had received their Medical Degree on a bogus way? Received their certifications from a diploma mill for \$350.00?

Of course not! So why then, would you want to hire someone like Stephen Doyne?

The receipt of the Diploma in Forensic Psychology from the American Board of

Professional Psychology (ABPP) attests to the fact that an established organization of peers has certified the Diplomate as possessing a high level of professional competence and maturity, with the ability to articulate an explicit and coherent rationale for his or her work in forensic psychology.

The ABPP diploma has been recognized by judicial decisions, regulations, and statutes in some jurisdictions as the standard of professional competence in forensic psychology.

The Diploma awarded by the American Board of Professional Psychology (ABPP) is the only post-doctoral specialty certification recognized in the American Psychological Association Directory. ABPP has been incorporated since 1947, and ABPP has rigorous standard for the credentials, work review and oral examination of applicants for three hours by a panel of three psychologists who hold the Forensic Diplomate. No candidates are exempt from the examination or "grandfathered."

Stephen "Kat" Doyne did not meet the above criteria

Doyne only listens to one party in my case. My teen has heard Father telling Doyne what to write in the report.

Doyne fails to confirm accusations or speak to the children about issues. He is a hired gun for one side.

Even the parents who get custody realize that and so do their attorneys.

This is unethical.

He gives himself titles in cases ie "Special Master" although not ordered.

What will the APA do with this. The judges don't care

alright, I could have been a bit clearer on that note. The intended message was to say that there are many good ones out there, even a handful who help folks thru high conflict cases.

But they are not "the crowned San Diego dirty dozen" who essentially have this work locked to themselves. Is that a clearer explanation for you? Now bend over, and I'll wipe your butt too.

It's time you think out of the box.

You sound as though you are one of katz lawyer followers.

Are you concerned that your high conflict coffers may be drying up quicker than you had ever thought?

Hey Gupta, et al.,

I see more relief that the truth is out about Doyne rather than anger.

Any anger is coming from an intelligent place. Gupta your plea is coming from an emotional place. The Doyned and anyone else's relief or anger as you want to call it, is coming from an intelligent place.

Would you want your Doctor whether he/she has a PhD or MD to have fraudulent and misleading credentials? This is what is upsetting to me. If there was absolutely no question that Doyne has unquestionable credentials as stated on his CV, then all this would have never become something. So Gupta you're asking all to just overlook the deeply moral, ethical, and all important fact of VALIDITY in professionalism? So you

think it's ok for Doyne or any other professional to have questionable or con-artist claims in credentials?

I see who you are Gupta. You don't see the issue do you. Is America growing more and more stupid or what?

I appreciate reading that if Doyne had the Real Well Respected Cerdentials, one must look and reevaluate one's self and respectfully and seriously consider what Doyne created even if it is felt Doyne's fabricated..

But when Doyne:

1- Does not have the Well Respected Credentials.

2- Claims worthless peices of paper as "Honors and Awards."

3- Has this fraudulent deceiving attitude.

1  
2  
3  
4  
5  
6  
7  
8  
9  
10

Then one must put Doyne under the microscope.....

I know someone who made the same Cat Credentials Purchase from the same Con Artist Owner of the "Diplomate American College of Forensic Examiners/ACFE" same Owner recently created a new name called "American College of Forensic Examiners "Institute"/ACFEI" by simply adding the I to ACFE. Why?

ACFE is the same as ACFEI Same owner, same phone number and same location 2750 E Sunshine Springfield Missouri. Is this the letter "I" adding to ACFE due to complaints and discovery of nationwide fraud piling against the ACFE?

Because the purchaser was a professional with dignity and integrity, she THREW THE ACFE DIPLOMATE IN TRASH . This is the professional whom I would like to see evaluating and making serious decisions.

As for Doyne he framed the Worthless piece of paper, hanged it on the wall in his office trying to deceive and intimidate the naive unsuspecting public as much as he can. Doyne even title it to his name on his letters with the Fraudulent Diplomate American Board of Forensic Examiners, communicating with the Court creating this air that no one will ever dare to investigate..

What should that tell any simple unbiased clean mind about Doyne?

If Doyne has dignity and knows how to respect others, he should have apologized and admitted that he was bluffing the public for personal gain. This is the right honorable professional thing to do. The problem is Doyne still dreams, fascinates or thinks that he can continue to bluff the public. He even uses his friends and some contacts here to act on his behalf.

I am a parent who has unlimited access to his kids as a result of what Doyne favored for me!!!! However parents must be honest to what one sees here. After I discovered Doyne's Credentials game and me being a parent with integrity, I lost my respect for this man regardless of what he recommended for me....

133. *Righteous Outrage Over This Garbage*

July 31st, 2009 at 7:50 pm

Supervised Visitation has gotten so far out-of-hand, "professionals" Monika Konia and her partner Allan Glick of ABC Visitation Services took their dispute with a client to; Judge Judy! On February 21, 2008, Supervised Visitation has its 15 minutes of fame with each party slinging mud. There was nothing professional about their display. It seem time to eliminate these so-called "services." If necessary, use volunteers from the neighborhood, church or school. So called "professionals" remain in extremely short supply.

(Amazingly, Judge Judy said in her 30 years on the bench she never heard of a case where the mother who had 97% custody had it reduced to 3 hours a week. Anyone with recent experience knows this is simply untrue. One case involved a mother who had sole legal and physical custody after a long trial. She is now on the run, because, father's father, Rep. Gary Miller (So. Cal) got involved and presto-changeo; custody was almost immediately switched four months after a trial in which the mother was granted sole physical and legal custody. Father, by the way, and son of Rep. Miller, has a long history of arrests and bad psychological evaluations. Clearly, Judge Judy remains completely and wholly ignorant to how the courts currently operate.)

10. Greatly curtail child custody evaluations. Not only are they costly, evaluations having been ordered for decades, rarely publicized is follow up studies to determine their merit have shown significant damage to parental relations from isolated contact between parent and child.

However, judges continue not listening to children and denying the Constitutional right to parent which fosters parental-child alienation. It's helpful to be educated. While it seems prudent that no judge or minor's counsel should address this issue, or accept an appointment as minor's counsel unless they have been educated in the area, (I suggest the book, "Children Held Hostage" which few judges and attorneys have read, probably because it's distributed by the ABA rather than say, Barnes & Noble)

What's clear is any parent who deliberately isolates a child from the other parent is damaging that child and the child's relationship with the other parent. The offending parent should be warned that action could result in a loss of custodial status. However as it now stands, many judges, attorneys, and litigants are still defining parental alienation to the standard prior to the suicide of Dr. Gardner. Unfortunately, parental alienation, or the destruction of the parent-child relationship has greatly increased due to judicial and attorney ignorance.

134. *Commonalities of Doyne-Konia-Hannahs Dungholehouse*

July 31st, 2009 at 8:00 pm

The following is from CourthouseLaw.com. Grab a bucket. You will more than likely feel like puking afterwards.....

JUDGES- ARE YOU READING, LISTENING?

Please note of the first four of the eight reasons listed for requesting "Supervised

Visitation" concern criminal acts on a child. Why is no one asking why criminal conduct

is being adjudicated in family court?

Unknowing parents don't initially realize the obscene thought of "visiting" one's child is just another cash cow of the industry...although California Rules for Supervised Visitation located Here demonstrate Voluntary, services are quite acceptable to the court...a factor not featured in the Judicial Council form: Pay up or you won't see your kids or mentioned by organizations offering the 'service'.

As such, Supervised visitation has become the newest cash cow for the industry...as the directors and staff of these extremely questionable "services" lobby judges to sit on their boards. No one is surprised then, when judges or commissioners later order litigants to use the services of the companies upon which they sit. Leave it to ABC Visitation Services Monika Konia her her partner Allan Glick to take their fury over a stop payment check to Judge Judy! On Feb. 21 2008, Judge Judy aired with the prissy Konia railing against a former client on television. Folks...beware of this agency. Judge Judy said in her 30 years on the bench she never heard of a case where the mother who had 97% custody had it reduced to 3 hours a week.

Obviously Judge Judy is ignorant to how San Diego courts work.

In The Worst Interests of The Child.

Case in Point: San Diego's Susan Griffin. Formerly of Real Solutions. After Susan Griffin was exposed as a fraud, she simply hired a publicist and changed her company name to Hannah's House.

With Hannah's House however, only the name has changed. Griffin continues her very poor track record of safety for children, and honesty.

Lets put it this way. After all of the above, instead of being prosecuted for fraud, Griffin became instead, a Family Justice Center, favorite. That's right. She headed up the visitation program after all this came out.

Which is why we recommend appealing any order to use her facility; and filing a 170.6 for any judge ordering anyone to use her services or facility.

That Casey Gwinn "co-partnered" with Griffin after she made the cover of San Diego Magazine for her bizarre behavior, and "accounting irregularities" demonstrates how little care San Diego officials demonstrate to San Diego's most vulnerable.

When this was made known to editors at the Union Tribune, it was ignored as the U-T continued its romance with all things Gwinn.

Although Reporter Jeff McDonald was presented with documentation as far back as 2001; there was no coverage on Griffin's outfit. Years later the editorial board distributes mild rebukes of Gwinn.

However, those rebukes solely concern the pension scandal.

Sadly, the U-T is still on board with Gwinn's private non-profit, Family Justice Center.

As such, San Diego's children remain very much at risk.

Kids Turn based in San Francisco has lobbied judiciary quite effectively in this regard, but they're not alone.

This portion of this cottage industry within the divorce and custody industry continues to exhibit no useful purpose.

Although allowed by statute and certainly better for children, judges seldom allow "volunteers" to provide this dubious service.

Hannah's House is one such non-profit organization offering "supervised visitation" services. It was created from the rubble of Real Solutions after bad press.

However, just like the PBS documentary Breaking the Silence outlined, instead of protecting children, the courts protect the abuser. One San Diego case mirrors the what the documentary shows to be a twenty year practice. Report abuse, lose custody.

One mother reporting abuse was ordered to Supervised Visitation at Griffin's facility and it was six months before they returned calls. The father, a San Diego attorney, got a free ride after the judge ignored evaluator's reports, teachers calling CPS, and the daughter's pleas for help.

First busted in San Diego Magazine's March issue, Real Solutions – Not. and again in, November, Susan Griffin's march through family court continues. Judges know she's not credible; but instead of being prosecuted for fraud, judges demonstrate their disregard for the children they take an oath to protect. Why?

Two words: federal funding.

Who benefits?

The police.

The majority of grant monies requested from the Family Justice Center goes not to women for programs and education. It goes to the police department for bullet proof vests; which may or may not stop bullets.

Few realize the unregulated Domestic Violence business is Big Business.

Click on the above and scroll to the bottom of the page to discover various Family Justice Centers sprouting up like zits on a teenager's face.

Not only do Family Court judges continually protect the economically superior, the Executive Branch of government rather than enforce existing laws, under the guise of helping women through the Office of Violence Against Women, wind up paying for bullet proof vests for police officers, instead.

Factor in a family court related non-profit, and the party is on. Unfortunately, the party is financed by family court litigants.

Are visitation centers necessary?

Probably not. At least not for longer than a month. But the Hannah's House website is more interesting for what isn't mentioned.

Not mentioned is that acceptable visitation can be voluntary, from an agreed upon third party. Parents know someone a child knows and is comfortable with is far better than any "non-profit."

Also, Supervised visitation is an almost completely unnecessary expense.

Federal funding for supervised visitation programs is supposed to be based on substantiated child abuse, not marketing, the "best interests of the child." Federal law 42 U.S.C. 2000 h-7 and 2000(d)(2) holds that if a state receives federal funding for any program, it waives sovereign immunity to be sued if it discriminates and violates the Equal protection clause of the Fourteenth Amendment to the U.S. Constitution

Indeed, even the most casual reader to the Hannah's House website, quickly realizes although Hannah's House declares no responsibility for their problems, (it's always someone one else's fault), the system won't address it, because this group is part of systemic problems within the system. This is kind of denial is not good when considering utilizing services upon which one expects accuracy.

One would expect, because children are the marketing cog in an industry whose motto is "mo' business" judges would at the very least appear to care about children. But one would be wrong.

Susan Griffin's Hannah's House remains Exhibit A as to how little regard judges have for children, and why judicial disregard, at least in the case of Susan Griffin, now approaches two decades of disinterest.

Judges like Howatt, and Randa Trapp, (married to a cop), routinely orders kids into harms way, while parents remain ignorant to Hannah's House history.

The long history of no police action in spite of magazine cover stories and evidence of fraud, including page one news stories is proof judges and law enforcement officials alike are behind the "worst interests of the child."

As such, Hannah's House is in a class by itself. But courtesy of San Diego Police, it's a Protected class...in spite of magazine and newspaper headlines.

Is there any oversight?

135. *NOT FOR THE KIDS*

August 1st, 2009 at 8:29 am

Not for the kids, you do not understand . . . . . when a report is provided to the attorneys, and one side does not agree with the recommendation, then the only way to do something about it, is to take it to court and try to convince the judge with EVIDENCE why the report should not be adopted, or why it should be amended.

It is because our Court System of Justice is far more concerned about the \$\$\$\$\$\$ aspect

Family Court Judges do not give a hoot about children of divorcing parents. It is obvious  
in their actions, and lack of actions.

Of course Stephen Doyne looted Millions of Dollars from divorcing parents, however,  
nothing will probably be done because it is not "billions of dollars" (like Madhoff).

Harmony,

It is very well possible that you coming down from Berkley, your brain has been fried beyond recognition. After all, Berkley is the center of "Anti-American everything", has a large communist population, and drugs are still used daily by many of its inhabitants.

You said you were on "the winning end of your child custody battle"? Do you actually believe that there are any parents are on the winning end as it relates to child custody battles? Nobody wins Harmony except the crooked doyne-type psychologists who walk away with a much fattened bank account. Regardless of which parent walks away with more time of their children, there are no other winners. Both parents typically feel emotionally drained, beaten down by the system, and want nothing more to do with

I have learned today that there is a legal chance that the anti-slap can be struck based on Public interest/sentiment... so the bigger, the more supportive the turn-out, the better for his case!

141. *Doyne's Credentials*

August 10th, 2009 at 2:01 pm

A web site shows Doyne earning \$500,000 to \$1,000,000 a year

This money is earned by destroying our children and families.

He refused to see my children although court ordered when I could not pay him. This is a greedy person who is only in this court ordered 730 business for the money.

Doyne drives a huge black Mercedes.

Doyne lives in a huge house in Del Mar.

These items were purchased by the Doyners...Doyne took our children's college funds to support his own expensive greedy lifestyle.

Doyne was arrears in his own child support according to court records now sealed as per a reliable source who has conformed copies.

This man has no character, no ethics no business making choices about our children.

142. *Family Court Critic*

August 11th, 2009 at 3:09 pm

Actually, none of these court-appointed buffoons have any business making choices about our children. Family Court oversteps it's authority and removes children from perfectly good and loving parents in their zeal to feed the pockets of their court-appointed lackeys. They are contemptable lowlifes who care nothing for our children and their futures.

What happened at the Aug 14 hearing?

145. *Doyne's Credentials*

August 31st, 2009 at 11:45 pm

Doyne has taken many children away from capable loving parents. He has disrupted children's lives all for greed. This man has invented pathology when there was no pathology as shown my other psychologists or testing. He should loose his license to practice. This is abuse of power and abuse of all the public trust placed in him. All for greed.

The above comment was either made by Doyne or someone else equally as abusive. This is name calling and verbally insulting. This is an excellent example of the lack of respect Doyne and his very few followers have for families and children.

Doyne purposefully removes children from a parent who has been a upstanding Mother or Father to create chaos and increase his ability to charge fees. The above comment shows the callous

attitude of Doyne and his "lover" over a child losing a parent that has been active in his or her life. How can anyone say "move on with your life" when we have lost our children secondary to Doyne.

The Doyned are a large group of professional mature parents who have banded together to form a strong group to help protect other families from Doyne. We are numerous and very strong. We are in contact continuously and all follow the court proceedings even when we cannot be there. We have text, the internet and cell phones. Do not worry we are behind Dr. Tadros in spirit every court date.

We have succeeded. Lorna Alksne knows about Doyne now. Judges in North County, South County and Downtown know about Doyne. The attorneys with ethics are staying away from Doyne- no further referrals. We are protecting the innocent children from Doyne one step at a time. The only psychologist in all of San Diego to support Doyne once the bogus credentials were exposed was Lori Love.

150. *Doyned*

September 7th, 2009 at 7:10 pm

To the poster of Doyne Lover: You have to be either Doyne himself or Christopher Zopatti, his attorney because only someone who was there could make a revealing

statement such as those you make in your posting; either that or someone is taking a wild stab at guessing who and how many were there in the courtroom.

I was there and I am not ashamed to say so. There was not a single soul there for Doyne, except for his attorney Zopatti, and the meeting in front of Judge Bloom there was also no one there for Doyne.

There were plenty of people there for Dr. Tadros, that's a whole lot more than Doyne Lover can say.

Calling us names? This is all you have? This is all you've got?

Job claiming? You don't know us any of us or our personal or work lives!

Name calling? Doyne Lover you sound like a child.

What is this posting you make? It's nothing. This is very indicative of all that Doyne or his support (whichever you are) would have, NOTHING, nothing but a lack of support or substantial evidence.

I've seen both sides and from what I've seen I've seen of the court case evidence and from within the courtroom, Doyne has little to no support, and has no real substantial evidence over and above what Dr. Tadros has found on him.

151. *Doyned*

September 7th, 2009 at 7:28 pm

Do you mean to say even his wife did not show up to stand by her "Cat" Doyne?

She was probably out shopping with our kids college funds. Or getting the Mercedes detailed.

While our children are ripped out of our arms and are ordered "No Contact" with a Mother or Father whom have loved and cared for them their entire lives.

September 8th, 2009 at 3:34 pm

The motion on 9-04-09 was for Dr. Emad Tadros (the Real-Deal, Board Certified Physician) to change venue and get out of the San Diego legal community where Judges have been lectured to by Mr. Stephen Doyne.

In this hearing Dr. Tadros openly stated that he does not feel comfortable for the case to be tried in San Diego and therefore he is uncomfortable with the new judge, as this "NEW JUDGE IS ALSO" knowledgeable of Doyne's friends (other judges). Dr. Tadros mentioned the names of a few that are on the bench in the same building 330 West Broadway where the new judge is.

Judge Bloom re-assured Dr. Tadros not once, but twice, that he has never heard of either Mr. Doyne, or Dr. Tadros, and does not know either one of them. Judge Bloom listened very carefully when Dr. Tadros told him that he (Judge Bloom) knows friends of Mr. Doyne (other Judges) due to the fact that Mr. Doyne gave lectures, presentations, and consulted with them as stated on Mr. Doyne's resume.

Dr. Tadros stated that Doyne's favorite Judge, Joan Lewis, had unfairly put the case on idle and this was uncalled for and this made him feel very anxious. Then Dr. Tadros pointed towards the public audience and stated that the judge had to recuse herself when one of our conscientious County Supervisor candidates, the highly respected Mr. John Van Doorn testified under the Penalty of Perjury that she knew Doyne. The poor losers are the good public, and we will continue to be monitoring this case very closely.

In this hearing, Dr. Tadros openly stated that the San Diego Court has been in clear violation of the "California Rules of the Court" that are a MUST and most specifically lacking the pivotal form FL 326 that could have exposed Doyne's Fraudulent Credentials.

Dr. Tadros called upon investigation of Mr. Michael Roddy, the Court CEO and that he needed the case to be tried out of San Diego.

Tadros openly admitted that he had put the article of "Whores of The Court" by Margaret Hagen PhD, pp. 98-99, pinpointing the Fraud that takes place by such professionals who lie to the Court under oath especially about their credentials.

Dr. Tadros openly expressed his conscientious determination for the Public Good, that cannot be compared to any extent with Doyne defending his Fraud. We the public are proud of Dr. Tadros, his heart and his brilliant mind are most needed in this city.

What happened to us can happen to this very judge's own kids and grand kids, being looted upon by Doyne and his associates, and their looting generations to come if the court continues to allow their behavior.

Dr. Tadros passionately did not call us losers as you did Doyne Lover and we are not surprised. Instead Dr. Tadros called us loving, caring and hard working professional parents who have been called names and that our assets, homes, retirement funds and Kids College Funds have been pirated by Mr. Doyne and his associates and called upon investigating such.

Dr. Tadros felt much compassion as he noticed Doyne leaching on our Kids College Funds and innocent hard working families. Dr. Tadros did not feel comfortable calling Doyne "Dr." Doyne and always referred to him as Mr. Doyne. It could not be any better expression of frustration.

Dr. Tadros pleaded with the new judge that he wanted his case to be tried by the people and county who respected the California Rules of the Court and therefore asked for this case, that is for the public good, to be outside of San Diego county.

By now the wounded public can understand and feel why Doyne Lover wrote what he posted on this blog, September 4th, 2009 at 6:28 pm, and how the frustrated public feels about us hard working, honest, loving parents.

153. *John van Doorn*

September 11th, 2009 at 10:42 pm

It's all really simple.

When a 'professional' falsifies his credentials, it can mean only one thing. He is not qualified for the job.

Too bad 3,000 to 4,000 families had to learn this the hard way, my six children included. Each are presently suffering in one way or another and each is unlikely to reach half the potential they could have had, save perhaps one. Where are the courts in all of this? Why don't they accept some measure of blame! After all, they appointed him!

Oh that's right, according to the court, they are not responsible for checking out the qualifications of the 'experts' they order onto a case. Absolute lunacy!

Just more irresponsible leaders leading this country to ruin! I hope our family court judges follow Doyne out the back door, WE THE PEOPLE have had enough of all of you already!

September 14th, 2009 at 8:24 am

Hi John, Do we know what has happened with the Doyne case? Has it been moved up to LA as requested? I understand Doyne is still working in San Diego. What I would like to see is some naming of names. Let's talk about the psychologists and the minor's attorneys that have the "best interest" of their wallets in mind and not the "best interests" of our children. Thanks for all you do, John.

155. *Another Victim*

September 17th, 2009 at 11:48 am

Caution when Margo is evolved with your case:

1. Margo knows the system especially when appointed Minors Consul, she well withhold evidence and also twist evidence from what the truth is and manages the system to her own personal ideas. Not necessarily what the Law indicates. Also has Psychologist "one of the many who can be purchased" available for her own personal adjective's. Dr. Lori Love and all her buddies being exposed \$2,000.00 for consultation \$5,000.00 to take your case finally this corrupt system is actually being exposed!
2. This Attorney unfortunately pretty much dictates the procedure's the "Judge's" should evoke in determining the outcome of the case's she is involved with. Financial gain and money is the controlling factors, not truth and Justice.
3. This rumor as has been heard often about this Attorney.
4. This Attorney gives credence to the facts that the public and law enforcement's views of said Attorney's and or Family Court are valid.
5. Family Court especially Vista Court has nothing on Accorn.
6. Their little "Genesis Group Del Mar" now can be exposed, advocates call Channel 10 now expose them just as Accorn and other perpetrators of absolute corruption for defiling decent citizens and abusing the Court System for financial gain

156. *UNLOVED*

September 17th, 2009 at 2:04 pm

Lori Love charges a retainer of \$5000 before you meet her. Before you even find out if your child can develop a rapport with her.

All the lawyers out there please check the legality of this.

Then Love gets herself or Minor's Counsel Lewis or Schulman make sure Love is court ordered for years. Even if your child does not like her you are stuck. Apparently, she is not a very good therapist because the kids never get well. Do the judges know they are ordering you to pay \$300-\$450 dollars and hour twice a week to this "therapist" the kids do not even want to speak to at all. Do the judges know that Minor's Counsel is marketing only a few of their chosen therapist although there are 100's of ethical therapists in this county whom would really provide therapy for your child.

Or Visa Versa, Love recommends Minor's Counsel whom will also charge \$350 per hour. Then they have "meetings" laughing and giggling charging you \$700 altogether for the meeting.

Then Lori Love recommends "KAT" Doyne at over \$300 per hour. Then the three of them have conference calls at over \$1000 per hour. Do the judges know about this "best interest of the wallet?"

Then Love or Doyne recommends that Father sees one of their "favorite" psychologists ( Dess or Sparta) then Doyne or Love recommend Mother see Gold or Green. Then David Green refers you to his wife. It is a big marketing circle. Do the judges know this?

If you are a whistle blower then the GANG will all stand united against you. Forget, Best interest of the Children. It is Best interest of the Gang of Psychologists and Minor's Counsels.

This is a bigger scam than Madoff. The Family Court Ponzi Scheme needs to stop right now.

We the people, the children the parents, the grandparents the aunts and uncles have had

enough of loosing our families to corruption.

Thank you Dr. Tados and John Van Dorn we are all behind you.

However, he is finally exposed here on earth, and will most likely suffer the loss of his fraudulent profession, the profession of stealing people's funds from their children's college bank accounts.

mr. doyne, your antics are over. The public is on to you.

The courts will deal with you. You will need to sell your 100K Mercedes and ocean view home to pay your legal fees.

This would be the beginning mr. doyne. bend down and kiss your ass goodbye. Better get a lead butt-shield. Inmates like your kind

159. *So very sad*

September 18th, 2009 at 11:57 pm

Really sad and pathetic. Drs. Doyne, Sparta, Dess, Love have devoted their professional lives to helping a community that requires counseling and therapy during the most critical time and for the most at-risk patients -- our children enduring the divorce of their parents. Perhaps not so surprising that 0.1% of disgruntled parents (Yep, do the math), who didn't

agree with the outcome they think (in their twisted minds) they deserved band together to attack the professionals.

The real investigation should be into the psychological profile and assessment of this 0.1% fringe element that somehow has the time to continue to attack these professionals.

Even a cursory investigation would be very revealing.

160. *Justice for the Children*

September 19th, 2009 at 12:56 am

In answer to the above statement:

Doyners include parents whom have had a positive evaluation from Kat Doyne. Doyners include the Mother and Fathers from the same family with good results. Doyners include persons whom just saw him for therapy. They are appalled at the FALSE CREDENTIALS.

Doyners are high functioning parents without pathology. Doyne more than any other 730 expert in town has taken children away from the parent without any pathology. Why? To keep the parents fighting in court, so that he can do monthly "updates" and letters at \$400 a piece. Or come to court for \$3500 per day. It is a scam.

Doyners are appalled at Doyne, Love, Dess, Green, Parker, Sparta, Gold increasing the conflict in families to pad their wallets. They hold the parents hostage to their outrageously expensive services. They only refer to one another and financially benefit from this. The ethical psychologists are not allowed into their Gang. The GANG excluded the other psycholgists. No, don't blame the parents, grandparents here to expose the fraud.

The judges are now staying away from Doyne- they have seen the certified copies of Dr. Tados's Civil Suit for Fraud. Doyne lied to us all -any ethical psychologist will stay far

162. *Replyto "so very sad" Sept 18*

September 19th, 2009 at 10:22 am

"so very sad" is an accomplice of fraud. It is clearly in the context of the words.

Why are you using kindergarten math to attempt to prove your invalid comments?

The real proof is clear. doyme has been proudly using fraudulent certificates of credibility for decades.

Mr. doyme has fraudulently claimed he is/was a professor at both UCSD and USD. Both of these excellent schools of higher learning have disproved his claims. More FRAUD to the public.

This is all about FRAUD perpetuated over decades from therapists such as Mr. doyme. Of course he is not the only one, but probably one of the worst blatant offenders of this FRAUD.

Why do so-called "Professionals" such as Sparta, Love, Dess, Gold, Green, Doyme charge up to \$400.00 per clinical hour for their fraudulent services, when GOOD, DECENT, UPSTANDING, CREDENTIALLED THERAPISTS CHARGE BETWEEN \$125.00-

\$175.00 FOR THEIR SERVICES? Could this be a clue as to the complete and utter FRAUD and CONTEMPT exhibited by the aforementioned so-called "Professionals"?

The truth is here. It is black and white. There are no gray areas about it.

The Public has smelled the rat for what it is.

IT IS TRUTH WHICH WILL PREVAIL.

163. *Justice for the Children*

September 19th, 2009 at 11:35 pm

All that is necessary for the triumph of evil is for good men to do nothing.

Edmund Burke

The Doyners, Parkers, Dessers, Unloved, Greeners, Golders, and Spartad are standing up for justice. We will not be raped financially nor have our access to our children held hostage to their services and incestuous referrals.

We will protect the other families in their overbilling, double billing and forced therapy of our children.

Bogus Credentials, Bogus Therapy, Bogus referrals, Bogus Recommendations to keep churning fees. They refuse to let a child or adult choose their own therapist. How do the judges tolerate this?

We will work very hard to protect other San Diego families for these divorce predators.

164. *Question about Family Court System*

September 20th, 2009 at 4:19 pm

When I despair, I remember that all through history the ways of truth and love have always won. There have been tyrants, and murderers, and for a time they can seem invincible, but in the end they always fall. Think of it—always." Mahatma Gandhi, Indian political and spiritual leader (1869 – 1948)

San Diego Families will unite against corrupt evaluators.

Follow the Money Trail –

Check- do they endorse certain judges at election time?

Does Minor's Counsel participate in campaign contributions?

Is there a monopoly regarding which therapists can be used in court?

Do certain judges only refer to certain therapists? Does Minor's Counsel only refer to certain 730 evaluators?

Why are Love and Doyne on Viviano's website and doing evaluations for her? This is conflict of interest.

Subpoena the Gangs financial records-

Attorneys: Is this antitrust?

I have been told that Love has been offered boats for a positive evaluation.

Two persons have stated to me that if you give Doyne \$10,000 he will write a letter criticizing another person's evaluation. Flat fee.

The money train needs to stop.

OUR CHILDREN ARE NO LONGER FOR SALE

165. *No Further Corruption*

September 21st, 2009 at 12:14 am

Doyne: The first word that comes to mind to all ethical therapists is arrogant : having exaggerated self-opinion

His own pathology sent him to falsify his credentials as well as his CV.

The only persons who would support this person, "so very sad" and

Lori Love condone this behavior of Doyne's. This is indicative of their Moral Compass.

Who condones bogus credentials?- a person with a financial interest in the corruption

166. *Not in the best interest of the children*

September 22nd, 2009 at 8:41 am

They are always referred to as the "Expert" put on a pedestal by the Judges, Attorneys, Minor's counsel, etc., and they charge highly disproportionate rates compared to the 100s of other Psychologists out there who are probably, IMHO, more ethical and moral. Yet, they are so quick to turn and say about any parent taking a stance of complaint against them that the parents are "disgruntled" or like Christopher Zopatti and Doyne say, that they are "Not overtly psychotic". If they are such experts why are they not speaking out and taking action to bridge the gap between these cases where complaint comes from and their work? Why are they continuing to break families apart and tear them down? There is a motive behind it all indeed.

They really don't work at bringing parents and children together. Instead, they stand in their arrogance and "expert deity" status. Why? Because they really don't care about the kids or the parents, they only really care about making their \$350+ an hour billings, and relishing in their "quasi-judicial immunity," and essentially doing whatever it takes by flat-out lying, fabricating pathology and perceptions, recommending inhumane visitation, and in general by not following any scientific method at all.

Who are they? Well INMO it would have the likes of Doyne, Green, Sparta, Love, Dess, Gold, Parker... yah, the ones that are continually ordered by the court. You know, the San Diego Family Court that doesn't follow the CA State Rules of the Court over custody evaluators qualifications, and who says they do not check credentials (i.e.-resumes).

Sounds more like the Wild West Family Court to me, no wonder these so-called experts are getting away with what they do and how they operate. The parents are on to you SD Family Court, they're on to you, you so-called experts.

Hopefully this well try to put things is perspective after many years involved in this Family Court System and watching Psychologist and Attorney's.

I have witness's personalities conditioned by inflated sense of self-importance, need for admiration, self-involvement and lack of empathy for the TRUTH and other people.

Finding most are arrogantly self-assured and confident that they feel superior and actually their judgments are actually in the best interest of the children involved this has become very disabling and distressing, validating their unethical corruption for financial gain.

Problem is the entitlement derived from their appointment either as an Attorney or Psychologist, any criticism and they react with distain and counterattacks when anyone questions their superiority.

Disregard for the sensitivities of the Law or the Truth is secondary to what they personally think is best. Absolute Judge, Jury, and or Executors all subject to how much monetary gain they can acquire and their excessive ambition dictated by Money.

Complaints mostly fall short of the desired outcome but with the current exposed amount of fraud and negligence now is the time to file complaints maybe some of professionals who actually do care about their profession will actually do something to remedy this situation there are actually many Attorneys and Psychologist who are highly honest caring professional's they just don't seem to be in the Family Court System.

Actually cannot blame them this is the humiliating, degrading and hollow system with total disregard for Truth and or Justice.
